September 2017

Dear Parents,

The Federal Government's Protection Agency (E.P.A.) published final rules implementing the Asbestos Hazard Emergency Response Act (A.H.E.R.A.).

This law requires that all elementary and secondary schools, public and nonpublic, alike, be inspected for the presence of asbestos-containing building materials and that they submit an asbestos management plan to the State of New York.

Please be advised that we had extensive work done on our school during the summer of 1984 and again with the renovation in 2006. Our school has conducted the necessary Asbestos Examination every six months and once again, we are in full compliance of all laws. As always the safety of the children, faculty and staff is always of paramount importance here at Saint Ann's.

Sincerely,

Mrs. Ficchi
